

Cookie Cutter Sizing Chart

By A Modern Cookie
@amoderncookie | amoderncookie.com

Use the grid below to help plan and visualize the cutter size that you would like to purchase!

- Keep in mind, cutters are usually listed in the shops by the longest length of the shape.
- You may consider sizing up in long or narrow designs as they end up being smaller cookies than those of the same size that are full square shapes.
- Alternatively, you may consider sizing down in fuller square shapes to avoid having a huge cookie.
- Place your existing cutters on the grid to get a sense for your size preference and then order new cutters to fit your needs!
